### About This Content

Experience the End Times in style! This DLC contains a bold new look for the Dwarf Ranger Bardin Goreksson. The new skin is applied when downloaded (to revert, simply uninstall).

### Studded Leather

To survive on the harsh mountain slopes without the security of a nearby hold to fall back to, Rangers have learned to be stealthy and to fight in a manner unique for Dwarfs. They are ambush-hunters, experts at approaching the enemy from unexpected angles. Where possible, they will trigger avalanches, misdirect wayward foes over cliffs, or lead them into the teeth of an oncoming ice storm. Rangers are walking arsenals and carry a slew of different weapons - crossbows to skewer foes at long range, an axe for close combat and, for truly imposing foes, great axes. They have learned to keep bedrolls, pots, pans, and climbing gear secreted in camps hidden along their mountainous routes, yet still, they must carry all their provisions on their backs as well.

The game is overly simplistic and too focused on the option of couch co-op. As a single player i found it very boring very quickly.

. quality fun for like, 5 minutes.. This is one of the best games I've played! I love how the story plays out and the choices you have in the game. If anyone likes text-based games where your decisions matter, I'd strongly suggest getting this game.. Game wont load past start up screen and there is no help from developers to try and get it working or refunding my money.

So wouldnt advise anyone else to waste their money.. This game tries to sell you on a premise right out of the gate. I think it does, the stages feel pretty nice, and getting the scores are part of the challenge. I like what i've played, however brief. It is a solid rhythm game that keeps you on the toes as it dances about. I don't know about the length, but the music, the graphics, and the whole approach just nabs you and doesnt let go. If its as short as other reviews say, I can see getting it on sale. But I'd get dlc for this in a heartbeat. Easily worth 5-10 bucks for what you are getting I would think, especially going back for challenges.

So, i hope that this review gives you a glimpse from a music fan. (And to give my hands a break on the constant movement that the stages demand.)

A would be, cool game executed poorly. The game gives you no instruction and is Hard from the beginning. You have to keep losing until you pick up the mechanics. It feels more like work than fun and the game actually insults you while you play. If you get mad at videogames I would stay VERY FAR from this one.. These girls are very pretty.  
great perspective!

I like these pictures! 12/10. comunis propagandhi. *This game makes me want to end my life yet i keep playing it . You can't expect much from a game that costs 10 cents*

*Just got it for the cards. This game is brilliant for the price. While it lacks depth, it is good fun while you enjoy it.. Life's just too short.*
